

## Technical Specification

MoveMe is a flexible event which can be staged either outdoor or indoors.

Its main technical requirements are space and sound as follows:

### **Basic Space:**

- a stage 6x5m with a minimum height of 1m. Solid and stable. This will be used for 2 dancers OR approximately 10m x 10m clear area with no trip hazards e.g. loose paving. Dance flooring may be required depending on the surface
- approximately 1 m<sup>2</sup> space per participant
- a backstage space where the dancers can change (if possible)

### **Sound:**

- sound system of professional quality including a mixing desk. Power of speakers appropriate to the space
- 2 monitor speakers on stage/available for lead dancers
- 2 headset microphones (Shure or similar quality)
- all connecting wires and cables for above equipment (music to be provided on iPod or Macbook)

### **Light (indoors events/if required):**

- lighting that illuminates the dancers on stage and creates a party atmosphere among the audience e.g. a disco ball or disco ball effect

### **DJ (if required):**

- 1 x mixer (minimum 2 channels)
- 2xCDJ's

MoveMe can supply crew, technicians and equipment at cost or we are happy to work with an in-house team.
